- > Hospital discharge planning
- > 24-hour live-in care packages

WORKING WITH YOU

A service born of personal experience

A passionate advocate determined to make a difference to people's lives, Anne Reed and her experienced team have created a specialist service not only to navigate clients through the maze of health and social care provision but also to offer practical support by acting as a professional Attorney for both Health & Welfare and Property & Finance. Working alongside our clients we strive to implement and achieve our clients' wishes and meet their needs on a day to day basis.

Having witnessed events at both a personal and professional level, the decisions clients are faced with, often at a time of crisis, can be hugely challenging. Being able to source relevant information and offer 'solution-based' pragmatic help is invaluable.

At Paladin Advocates & Attorneys we aim to offer clear, concise and practical help. Through our extensive network of professional contacts we are able to connect our clients to a full range of services.

TAILORED SOLUTIONS TO MEET YOUR NEEDS

With over 40 years of working in health, social care and legal practice, Anne's experience and most commonly expressed priority by individuals is their desire to maintain their independence. Loss of Capacity to make decisions about their lives, physical illness and disability together with the fear of losing their home and associated financial consequences, all factor highly in issues to resolve.

Ill health, disability or an accident can mean your independence and life can change in an instant. Sadly many clients and families do not ever speak about the "what if" scenario and the need for care which so often means there are no plans in place to advise on health and welfare or manage day to day finances. In our experience there is no one manual which covers such eventualities given everyone's circumstances are so unique.

Developing a service that can both professionally advise and implement practical support to address such fears is the foundation upon which Paladin Advocates & Attorneys was created.

Paladin Advocates & Attorneys finds solutions to optimise each client's quality of life.

The expertise and passion with which Anne and her team are able to advise means you will be informed, guided and supported every step of the way.

Many of our existing clients do not have family to support them – or simply too far away to offer practical support. That's where we are able to step in, organise, arrange and quite simply manage our client's needs, choices and individual wishes. From arranging 24 hour live in care, to managing day to day finances, we do whatever it is our clients are unable to do – ensuring they can maintain their independence.

Caring for clients locally and across the UK, Paladin Advocates & Attorneys offers families the opportunity to understand the options, the legal and technical jargon, define a plan and provide optimal solutions. Knowing you are just a telephone call away from receiving help and support will provide the much needed reassurance and peace of mind.

We are a small team which means you will receive a personal service – always a friendly voice to take your call assured our knowledge and expertise will be able resolve the circumstances which may arise.

WE CAN ASSIST WITH

- > Suddenly taken ill, hospitalised and not knowing what next steps to take?
- > Who would you want to make decisions in the event you were unable?
- > If someone loses capacity and there are no LPAs in place what are the options?
- > Diagnosed with Dementia and need to know what rights and options are available?
- > Where would you like to receive care in later life? Home, Nursing Home or residential care?
- > Want to retain your home? How to secure your home and savings without creating a deliberate deprivation of assets.
- > What are the options to fund the care you need?
- > Arranging and releasing capital through equity release.

Paladin Advocates and Attorneys can prepare and register Lasting Powers of Attorney and also be appointed to act as your professional Attorneys for both Health and Welfare and Finance. We prepare Deputyship applications, as well as advising appointed Attorneys and Deputies in their roles and responsibilities. We can arrange and monitor the provision of 24-hour live-in care specially customised to your individual needs. As Advocates we represent and challenge NHS and Social Service provision and funding assessments. Experienced as both clinical and legal specialists in all aspects of Community Care, we are able to signpost and connect with a range of expert professionals who will be able to help you.

A FRIENDLY SERVICE

We are a friendly and approachable service so please give us a call and see how we can help make a difference to your life.
